COMPARATIVE PERSPECTIVES ON
LANGUAGE ACQUISITION
A Tribute to Clive Perdue
Edited by Marzena Watorek (Universite Paris 8), Sandra Benazzo (University Lille III) and Maya Hickmann (CNRS)

Description
This volume aims to provide a broad view of second language acquisition, from initial to final stages. It does this within a comparative perspective that addresses results concerning adult and child learners across a variety of source and target languages, in order to assess the relative weight of cognitive and typological determinants during language learning.

Contents
Introduction—Marzena Watorek, Sandra Benazzo & Maya Hickmann: New comparative perspectives in the study of language acquisition – Clive Perdue’s legacy

Part I. Second Language Acquisition: from initial to final stages

Part II. L1 and L2 acquisition: learner type perspective

Part III. Typological variation and language acquisition

Closure—Sir John Lyons: A personal tribute

Author information
Marzena WATOREK is Professor in Linguistics at the University Paris 8. Her research interests include second and first language acquisition, particularly discourse production, initial processing of the input by adult learner, and the interface between language acquisition and teaching.

Sandra BENAZZO is Associate Professor in Linguistics and French as a Second Language at the University Lille 3. Her research mainly concerns L2 acquisition in the domain of temporality, information structure, discourse organization and the comparison with L1 acquisition.

Maya Hickmann is Research Director in the Laboratoire Structures Formelles du Langage (CNRS and Université Paris 8). Her research mainly focuses on the role of structural vs. functional and universal vs. language-specific determinants in first and second language acquisition.
